WEDDING BELLS.

Marriage of Charles W. Palfrey to Miss Florence Lowe.

The first marriage in the new Church of St. John the Baptist was celebrated on Tuesday last, the contracting parties being Mr. Charles W. Palfrey, a popular C.P.R. railway employee, and Miss Florence Lowe, of Moose Jaw.

The church was well filled with spectators.

The bride, who was handsomely dressed for the occasion, was supported by Miss McCarter. Mr. J. Robinson performed the office of groomsmen. The bride of the bride, Mr. Ernest Lowe, gave her away.

After the ceremony the wedding guests repaired to the home of Mrs. Joseph Walker, where a sumptuous wedding breakfast was served. The bride was the recipient of the following presents:

Handsome bride's cake, Mr. E. Lowe (uncle of the bride); Set of cut glass salt cellars and celery glass. Messrs. L. and A. Lowe (brother of the bride); Pair magnificent pictures, J. M. Robertson; Breakfast quilt and half dozen silver teaspoons, Miss McCarter; Handsome silver Tankard Mr. Daly; Silver butter dish, J. M. Ouley; Silver toast rack, Mr. and Mrs. Walker; Half dozen silver teaspoons and forks, Mr. E. Gordon; Pair handsome plush cuff and collar case, Mr. C. Clive; Set of carvers, Mr. and Mrs. T. B. Baker; Hand painted china tea service, Mr. and Mrs. J. T. Strupson; Glass berry sett Mr. and Mrs. T. W. Robinson; Splendid parlor lamp, Mr. and Mrs. C. Henry; Set of carvers and half dozen table spoons, J. Brass.

Mr. Palfrey was presented with a handsome white and gold china tea set accompanied by the following address:

Your brother friends cannot allow the occasion of your wedding to pass without expressing in some tangible manner the esteem in which they hold you. Their relations with you have always been pleasant, and it is their earnest hope that those relations may long exist.

They therefore ask your acceptance of this little gift, hoping that in after years you will recall with pleasure the days we have spent together.

Wishing you and Mrs. Palfrey life-long joy and prosperity.

J. Wallace, A. McKenna,
H. Uper, P. Callon,
C. England, J. Robertson.

THE TIMES extends its best wishes to Mr. and Mrs. Palfrey.

A Connection to Ranchers.

The Government has informed North-West ranchers that they can now purchase ten per cent. of their leased and unleased land in freehold for \$2 per acre. This will enable them to have a smaller range of territory, which they can fence in and do away with the "squatter" trouble, about which the complain so much at present. A rancher, for instance, who holds 100,000 acres can purchase 10,000 for \$20,000. When the lands were leased to ranchers in the first instance a clause was put in the agreement that the owner could purchase a homestead farm. The amount of such homestead was not specified. It has now been definitely decided to make this ten per cent. of the leasehold. As to complaints about wolves destroying cattle, the Dominion Government cannot see their way to give a reward for every animal killed. That is a matter which belongs to the Northwest Territories.

Settlers for Wood Mountain.

QUERREY, Dec. 20.—A number of farmers from Eschboulements have selected lands in Northwest Territories on the eastern slope of Wood Mountain, which are adapted for mixed farming as well as for the raising of cattle. They will remove to their homes in the west next spring.

Some Provisions of the Northwest School Bill.

According to the draft of the Northwest School Bill as it stood when the assembly was prorogued, it provides for a system of schools similar in its main lines to the public school systems of Ontario and Manitoba, but differing in a good deal in certain respects.

There is not a minister of education in Ontario, nor a board of education and superintendent after the old pattern, neither is Manitoba's example followed.

They have, however, something half way between a Department of Education and the board-and-superintendent arrangement. The board is to be called the Council of Public Instruction and is to be composed of the members of the government, together with four other persons, two of whom shall be Protestants and two Roman Catholics, appointed by the Government. One of the members of the government is to be chairman. Provision is made for the appointment of a Superintendent of Education, who is, ex officio, to be the Secretary of the Council of Public Instruction. This, of course, is, as we have said, according to the draft of the bill as it stood when the Assembly was prorogued; it is impossible to say whether any of these features will be altered in its passage through the house, or if so in what respect.

Religious instruction is to be given in schools only after half past 3 o'clock, and no child is obliged to remain for it if his parents do not desire. Where the majority are Roman Catholics the school will be Roman Catholic, where they are Protestants, the school will be Protestant—which means of course that it will really be undenominational. The minority, if sufficient in number and if they are ready to go to the expense, can establish a separate school.

What steps the Assembly will take towards the abolition of state aided denominational teaching in schools, will probably appear very shortly.

The text books, except those for denominational teachers, are, it appears, to be the same in all schools; and there are to be the same inspectors, the same regulations, and the same qualifications for teachers.

Expt. Whyte Returns.

WINNIPEG, Dec. 21.—After an absence of several days in the west, during which he combined business with pleasure, Gen. Supt. Whyte, of the C. P. R., returned last evening to the city. Mrs. Whyte and Miss Whyte, who accompanied him remained in California for the benefit of the latter's health. At Regina several days were spent interviewing the government and members of the assembly in the matter of whether the land granted the C.P.R. should be taxed. Mr. Whyte leaves the end of this week for Montreal where he will discuss with Mr. Van Horne the question of the assistance to be given the promoters of the new elevator, which in all probability will be erected in the C. P. R. yards next spring.

Settling the North-West.

TORONTO, Dec. 20.—The Empire's Montreal correspondent says: Matters pertaining to the settlement of the Canadian North-West are receiving more than a little attention at the present time from the different railway and steamship companies having their headquarters in Montreal. One of the gentlemen who took part in a conference in this city during November stated today that they were waiting to know what policy the Dominion Government would adopt in this very important question, and when the same was announced he felt sure that by the combined efforts of the Ottawa authorities, the big railway and several steamship companies Canada would be filled up with settlers rapidly.

BOHREM JOTTINGS.

On Tuesday Dec. 13th quite a large gathering assembled at Brad Barn Farm to celebrate the fifteenth anniversary of the marriage of Mr. and Mrs. R. E. Thompson. After the company had partaken of Mrs. Thompson's well-known hospitality the balance of the day was spent in reminiscences of by-gone days.

Mr. and Mrs. Watson spent a few days in Bohrem last week.

Mr. Greybry has moved into town for the winter.

Miss Wynn and Miss Saunders spent a few days in town this week.

Mr. Walker Augers has fully recovered from his recent illness. We are glad to see him around again.

The following took the train Tuesday night for Ontario: Mr. and Mrs. E. N. Hopkins, and Mr. R. K. Thompson.

RANCHER.

Mr. Van Horne's Visit to Ottawa.

OTTAWA, Dec. 18.—During President Van Horne's two days' stay in the city he discussed immigration matters with the Minister of the Interior. He expressed himself as confident that there would be a big influx to Canada next season especially in view of the decision of the Atlantic liners not to carry any immigration to the United States after New Year's.

That question of a fast Atlantic steamship service was also discussed with various ministers, but thus far no proposition looking to the establishment of a fast service by the C. P. R. has been made by the Government.

The Government did not intimate to Mr. Van Horne its proposed immigration policy, but there is every reason for believing that no effort will be spared next season to stimulate the move towards the Canadian North-West.

High Rates of Interest.

MONTREAL, Dec. 20.—Canadian banks have been making money lately by lending their surplus funds in New York where high rates of money have prevailed during the past two or three months. Money has been loaned at as high as 20 to 40 per cent. in New York during the past week. Out of the amount loaned by Canadian banks in the United States to the end of October, which was \$22,732,445, the Bank of Montreal loaned \$12,300,000 and the Canadian Bank of Commerce \$9,000,000.

TEMPERANCE COLUMN.

R. T. O'FT.

Articles under this head are supplied by members of the Temperance Council No. 3, Royal Templars of Temperance, who are responsible for the same.

The Fee of the Church.

From the very nature of its mission in the world, the Christian is responsible for its attitude towards the "Temperance Movement."

Intemperance confronts the progress of Christianity and challenges the very prophecies of its final triumph. The Christian church has no foe more implacable, none whose hatred is more deadly, or whose opposition is more diabolical, than is represented in the forces of the liquor traffic. The forces of this traffic, organized, alert, determined, tremendously equipped, stand from end to end of the land, arrayed, like a marshalled army, against the mission of the church and state.

There is no alternative. Either the church must prove untrue to its divinely imposed mission—must permit its prophetic hopes to die—or, clothed in its heaven-given panoply, it must face and drive this array of evil forces from the world. The church can stand in no relationship with intemperance. The missions of the two are as far apart as heaven and hell. The church can consent to no armed truce with the iniquitous traffic. As properly might it enter into a league with death. There can be no delays, no compromises which do no mean advantage to the foe and defeat for the church.

Between the church of to-day and the gates of its prophetic heritage stands this army of opposing forces. The leader of these forces will listen neither to the voices of reason nor of justice; they propose to yield no vantage ground either at the bidding of man or God. The church in pursuit of its divinely appointed mission, must capture and transform the very ground on which this enemy is entrenched. The only proper attitude for the Christian church in its relation to the cause of intemperance is that of uncompromising and unrelenting war.—*Mariboro Star.*

To a very large extent we live in an age of pessimism. On all hands men are found lamenting the moral degeneracy of the times. They point back to the "good old times" and compare them with to-day much to the disparagement of our day. Especially is this true in regard to the liquor traffic. Crakers are found in every community, who sneer at the partial successes of temperance reformers and who say that the old state of things was better. It may be noted that these men are never found to take an active part in helping along the reform. The fact is that the "good old times" were not nearly so good as they are prone to affirm.

Through all the years of earnest work by big hearted and deep thinking temperance men, the public conscience has grown tender and sensitive and the great throbbing heart of the nation has burned with an intense and growing desire to rid itself of the curse. The best men in our land have come to the place where they are demanding the overthrow of the traffic and their demands must be answered affirmatively. These days are the best the reform has ever known. Next year will be better than this. Rev Dr. Sutherland writing on the "Progress of morals" makes this statement which, all, who are old enough to remember know to be true of this country as well as of his.

"Though comparatively a young man, I can well remember when in the country in which I was born and brought up there was only one pronounced total abstainer. In those so called 'good old times' the man who did not drink and did not supply intoxicating liquors to his friends was considered, to say the least, lacking in

SCIENCE AND PROGRESS.

INTERESTING FACTS PRESENTED IN BRIEF AND POPULAR FORM.

An Entertaining Toy That Illustrates Important Principles in the Science of Hygrostatics—An Instrument for Indicating the State of the Air as Regards Moisture.

Some of the most striking illustrations of the principles and laws of nature are afforded by means of scientific toys constructed for that purpose. Two interesting examples of these are represented in this column. The Cartesian diver (Fig. 1) shows the different effects of the suspension, immersion and floating of a body in water. This hydrostatic toy consists of a glass cylinder nearly full of water, on the top of which a brown cap, A, provided with a piston, is hermetically fitted. In the liquid there is a little porcelain figure, a fish, O, for example, attached to a hollow glass ball, M, which contains air and water, and floats on the surface.

In the lower part of this figure there is a little hole by which water can enter or escape, according as the air in the interior is

FIG. 1—CARTESIAN DIVER. This toy, which is now lighter, rises to the surface. The experiment may also be made by replacing the brown cap and piston by a cover of sheet rubber, which is tightly tied over the mouth. When this is pressed by the hand the same effects are produced.

A number of instruments called hygroscopes have been made for the purpose of indicating the condition of the air as regards moisture. They tell simply whether the air is more or less moist, without indicating the quantity of moisture it contains. A great number of animal and vegetable substances, such as paper, parchment, hair, catgut, etc., lengthen as the air becomes moist, but contract as it becomes dry, and these are employed in the construction of hygroscopes.

One of the commonest of these instruments is represented at Fig. 2. It consists of a small figure representing a monk fixed on a support; the head is provided with a coil of thin cardboard, movable about the point, where it is attached to the end of a small piece of twisted catgut. The other end of this is fixed in a tubulure, as seen in the section. The catgut twisting as it becomes dry, and untwisting as it is moist, moves the coil, which is carefully arranged so that the head is covered when the atmosphere is moist and uncovered when it is dry.

FIG. 2—A HYGROSCOPE. This instrument, and all others of the same class, only change slowly, and their indications are always behindhand with the state of the weather; moreover, they are not very exact, and can therefore hardly be considered more than scientific toys.

FRIDAY, DECEMBER 23, 1922.

LOCAL AND GENERAL NEWS.

Speaker Ross spent last Sunday in Moose Jaw.

Yesterday was the Winter Solstice—the shortest day in the year.

Christmas and New Year do not come on the same days of the week this year.

The Moose Jaw skating rink was opened on Saturday evening last. There was a good attendance.

A Sioux squaw in the camp east of the town has her feet frozen and it is feared will have to suffer amputation.

Mr. D. W. Bole, brother of W. W. has been elected for ward five in Winnipeg City Council.

A serviceable buffalo coat, in good condition, will be sold at a bargain. Enquire at the Times Office.

Christmas services will be held in the church of St. John the Baptist at 11, 3, and 7 o'clock on Sunday next.

A Xmas tree will be held in Wesley Church, Boharn, on Wednesday the 28th inst. Admission 25 cents.

Go to Palmers, River street east, headquarters for the genuine Heintzman, Pianos, Kano Organs, Domestic and New Raymond Sewing Machine.

Mr. Robt. Graham of the C. P. R. Dining Hall, Swift Current, was in town yesterday.

Miss Lizzie Smith of the C. P. R. Dining Hall returned from Winnipeg on Tuesday morning.

Mr. W. T. Barrett of the Railway Mail service left on Monday for his home in the east where he will spend his Christmas holidays.

Miss Hattie Hill while leaving the Christian Endeavor meeting in the Presbyterian Church on Monday evening fell and fractured her arm at the wrist.

The Methodist Sabbath School will hold its annual entertainment in the Town Hall on Tuesday evening Dec. 27th. An interesting programme is in course of preparation and a good time may be expected.

The following parties left this point during the past week for the various points in the east:

R. K. Thomson and E. N. Hopking of Boharn, Tilsenburgh; Geo. Williams, St. Thomas; Thomas and John Smith, Prescott; Herbert Annable, Winchester; William McDougall, Chatham; H. Migh, Toronto; H. McLaughlin, Warraton; J. Fletcher, Peterborough; P. Lowe, Carleton Place; Mr. and Mrs. Hannah and family, New Castle, N. B.

The Presbyterian Sabbath School will hold their annual entertainment on Monday the 26th inst., in the Town Hall. A large and interesting programme has been prepared. The principal pieces will be the Breach of Promise of marriage suit, "Bardell vs.

rendering of Dickens' description of an old English Court scene; a song by a boy and girl "When ye gang awa' Jamie"; a song by a very small girl accompanied on the organ by another very small girl; a dialogue in costume "John Robb and Anna Cobb"; also one entitled "A Visit to the Smiths"; a tableau "A Fairy Scene" representing the Queen of the Fairies surrounded by her body guard of fairies, all in suitable costume. At the conclusion of the programme, presents from the Xmas tree will be distributed, also a bag of candy to everyone present in the hall. No expense has been spared to make this the best entertainment ever held in Moose Jaw.

TOWN TALK.

Items Personal and Impersonal Pithy and Pertinent.

Brown—Morrison—Palfrey—next!

Who were the "Jolly Good Fellows" who composed the sleighing party the other night?

Breathes there a man with soul so dead Who never to himself hath said, "I'll pay, before I go to bed, The debt I owe the printer?" Yes, there are those we know full well, Who never such a tale can tell, But they, we fear will, go to—well The place where there's no winter.

Who shoved "Nitchie" so unceremoniously through the glass door?

Old times gone by and none too fast, And here's our Christmas day at last, Away all care and trouble east, And snug quarters with the past, For life's too short and loves too dear, To bother there and bother here, Away with blues and take good cheer, For Christmas comes but once a year. T-a-t-a-r-a.

The luck may come—the luck may go, It may be sun—it may be snow, The cash may stop its inward flow, But flow again—you never know, Come take the cup and sorrow down You'll soon be up though now you're down So smile again and don't you frown, But shout this chorus round the town. T-a-t-a-r-a.

It takes a long time to prepare a rabbit pie, when you undertake to pluck the rabbit—doesn't it Tom?

Not for Nuts—Governor.

The Regina Standard of last week has a communication and an editorial bringing forward our townsman Mr. J. R. Neff as a candidate for the Lieut. Governor of the Territories, to succeed Governor Royal. The Standard says: "We are confident that among these mentioned and unmentioned none has stronger claims than Mr. Neff, the member for Mooseomin." Spectator.

Cut Rates to the Orient.

SEATTLE, Dec. 20.—A lively rate war is going on between the Canadian and Northern Pacific steamship lines for China business and the Chinese are taking advantage of the cut rates, 200 leaving on the Victoria last night.

BOHARN NEWS.

According to announcement there was a general turn out of all the horses on Wednesday last. The first two that put in an appearance were Joker and Tenderfoot whom we have already described. The next is Joker Joker is a light bay, stands fifteen hands high, with a massive body, fine shoulders but short in the legs, but what he lacks in length of step he makes up in action. Then comes Sparks, a light sorrel, nineteen hands high, more than proportionate, long in the legs. As he crossed the bridge Adam was heard to remark, "What a stride. If he would only gather him, self quicker what a bonny mover he would be."

Then comes the Unknown, a young Pinto of unknown pedigree, fourteen and a half hands high with fine limbs, well muscled, an eye like a hawk, keeps champing the bit constantly and shows a fine gait.

Next comes Rambler a light brown fifteen hands, of ordinary appearance when standing, but when he moves he has an insetted gait, between a trot and a pace. At times he shows remarkable speed. We would advise you not to stake your money on Rambler.

Joker and Gleaner are the only two who have entered for the Mayor cup. The balance of the field has entered for the municipal cup. There is such an even field my advice is, "Bet on the field against the favourite."
